

Falmouth Public Schools Campus WiFi

1. Each building on campus has WiFi, which requires no password. The WiFi name is FalmouthSchools.
2. We have outdoor access points installed throughout the district, located on the map.
3. If you do not have home internet access, you are welcome to access the WiFi from the parking lot.
4. The Technology Department recommends the rear high school parking lot, which is circled in red. This area has two outdoor wireless access points installed, which should offer fast and reliable internet access.
5. You can also park outside any of the three schools and connect. The closer you can park to the building the better.
