

FALMOUTH ROUTE ONE INFRASTRUCTURE PROJECT

Construction Update #51 – September 1, 2015

This is a quick update and reminder. Construction activities along the Route One corridor are still on hiatus, but will resume next week.

Projects will include the installation of colored, textured paving around the center islands, along with landscaping installation in the islands and biofilters. You may expect some additional landscaping work (including weeding, loaming, and hydroseeding) in areas along the sidewalks where grass growth has fallen short of specifications.

This work is expected to last one to two weeks, as weather permits (of special note is the landscaping and planting; in the interest of plant viability, crews have been awaiting cooler temperature forecasts).

We'll have a full update for you next Tuesday. In the meantime, we wish you a safe and enjoyable Labor Day weekend.
