

LMAC Agenda

January 13, 2014

Item #1: Bonding

We have several potential property acquisitions in front of us and several on the horizon, but no money appropriated for that purpose. Is it time for the Council to issue the \$2M in bond funds authorized by voters in 2007? If we think so, what is our role in helping to make that happen?

Item #2: LMAC & Comprehensive Plan Implementation

Review the tasks that have been assigned to LMAC. Next steps?

Item #3: Possible Hardy Road Acquisition

The results of the field trip are in. What now?

Item #4: 2013 Annual Report

Feedback on the draft report. What's missing?

Item #5: Hardy Road & High Meadows Management Plans

When should they go to the Council? Who brings them there?

Item #6: Farm View Property

The developer of the horse farm on Route 100 is offering to give a piece of set aside land to the town. Are we interested? What should LMAC's role be when similar sub-division proposals are submitted for Planning Board consideration?

Item #7: LMAC Committee Chair?

Who is the LMAC chair?

Updates

- Upcoming events
- Forest Services / LMF grants
- River Point bridge bids
- Directional signs
