**Subject:** Earth Day 2020\_ FEIC Involvement (Request to be put on the Dec 18 Agenda)

Hi Theo,

Just following up on our conversation about FEIC's involvement in the town's plans to celebrate Earth Day's 50<sup>th</sup> anniversary, along with the Maine Bicentennial celebration in 2020. An adhoc advisory committee has been formed with representatives from the Conservation Commission, REAC, as well as the Audubon. The plan is to create an entire month of events from the end of April, through the end of May to celebrate these two big milestones.

Although we are in very early planning stages, we are hoping there is some interest from the FEIC to engage our business community into this effort. While we don't have the details ironed out quite yet, we are thinking that this could be accomplished perhaps through some levels of sponsorships, but are welcome to any other ideas.

I am requesting, formally, to be put on the Dec. 18 FEIC agenda to discuss this mentioned idea, and generate ideas, with the FEIC. Can you please reach out to the FEIC chair to get her approval, and confirm my attendance is acceptable for that meeting?

I would greatly appreciate it!  
Thank you,

***Kimberly Darling***
