

**West Falmouth Crossing – Development Feasibility Study**  
May 31, 2018

**Purpose:** Civil engineering and landscape architectural services to explore conceptual development feasibility options at West Falmouth Crossing, including:

- permanent property rights for a park and ride facility off Exit 53,
- new bus stop (potentially near park and ride facility), and
- concept development plan for some of the West Falmouth Crossing property that is currently restricted from development

**Scope:** Park and Ride Facility spaces = 24 +/-

**Property owner:** West Falmouth Crossing Owners Association

**Funding source:** Up to \$10K, MTA

**Project management, incl. consultant selection:** Town of Falmouth
