

# THE FALMOUTH CONSERVATION COMMISSION WOULD LIKE YOUR FEEDBACK

Last year, the Falmouth Conservation Commission completed a roadside invasive plant control project in your neighborhood. Please give us some feedback about that work by answering the questions below and returning them in the enclosed envelope **by May 15<sup>th</sup>**. You can also complete the survey on-line at [www.surveymonkey.com/r/SR6QZGF](http://www.surveymonkey.com/r/SR6QZGF).

## Communication

1. In general, how well did we do communicating the intent of this work: the problem invasive plants pose to our natural environment, the treatment protocol used, the logistics about when and where it would occur, etc?

- Very poorly
- OK, but could have been better
- Pretty well
- Very well

## Results

2. Did the treatment process have any unexpected impact on your property (e.g., non-invasive plants killed, reduced visual barrier, etc.)? If so, please describe.

## Follow-Up

3. Do you plan to do any follow-up control if and when new invasive plants show up on your roadside (e.g., pulling young plants, spraying, mowing, etc.)?

- Yes
- No
- Not sure

## **If we treated invasive plants within your yard... (If not proceed to Question #5)**

4. How satisfied were you with how well that work was done?

- Not very satisfied
- Fairly satisfied
- Satisfied
- Very satisfied

---

**See Reverse Side**

5. Would you recommend this work to others with invasive plants on their property?

Yes

No

**Advice**

6. What advice would you give us when we repeat this process in another part of town this year?

**THANK YOU FOR REPLYING BY MAY 15<sup>TH</sup>!**
