Re: Request for a change to the *Coastal Waters Ordinance*

The Harbor/Waterfront Committee is requesting the Town Council to make the following change to the *Coastal Waters Ordinance*. The additional moorings are requested by *Handy Boat* as part of their commercial operation. The request is supported by the Harbor/Waterfront Committee.

Under **Section 9-94, Mooring Assignments**, the committee is requesting to raise the number of moorings allowed for a marina from sixty (60) to seventy (70). The new language should read as follows:

Section 9-94

(j) *Numbers:*

(1) Marinas shall be assigned a total of not more than ~~sixty (60)~~ seventy (70) mooring assignments each, all of which will be located within the area designated as the Special Anchorage by the United States Coast Guard. These moorings shall be considered a rental mooring as approved by the US Army Corps of Engineers.
