**What's a kilowatt-hour?**

Electric power is measured in watts. 1000 watts of power used for 1 hour is a kilowatt-hour (kWh) of energy. Example: a 100 watt bulb lit for 10 hours uses 1 kWh of energy.

**Sales-Tax Exemption**

Maine sales tax does not apply to the first 750 kilowatt-hours (kWh) of residential usage.

**Late-Payment Charge**

Bills are due on receipt. The 2019 rate of 1.04% will be applied each month to the unpaid balance after 25 days from the bill postmark.

**Estimated Bills**

When we cannot read your meter, we will estimate your usage for the month. You have the right to read your own meter. Visit [www.cmpco.com](http://www.cmpco.com) for more information, or call 1.800.565.3181.
