

Summer Activities & Camps For Youth

Falmouth Community Programs 2024

Policies/Procedures

IF YOU SNOOZE, WE ALL LOSE...PLEASE REGISTER EARLY!

Many programs are adversely affected every year due to participants waiting until the last minute to register. There is a point when a program must be cancelled or modified if there are insufficient registrations. All programs require a high level of coordination which include facility scheduling, staffing, volunteer recruitment and the purchasing of supplies. You will notice many of our programs have registration deadlines. If there is room available after a deadline has passed, late registrations will be accepted with a late fee and your child may not be guaranteed a t-shirt, hat, ball, etc. Thank you in advance for your cooperation.

Program Cancellations

FCP reserves the right to cancel any program which fails to meet minimum enrollment requirements, so please register early! **Deadlines are one week prior to the first class unless otherwise noted.**

Inclement Weather

When schools are cancelled due to inclement weather, all youth programs beginning prior to 4:00pm are also cancelled. Decisions regarding evening programs will be made by 2:00pm.

After business hours please call 699-5302 or visit our website at: www.falmouthme.org for Community Programs Field Closures & Program Cancellations or check Facebook for program notices, updates and cancellations.

Refunds

If **FCP** cancels/changes a course, we will refund you 100% of course fees. *Online convenience fees are NON-REFUNDABLE.* A processing fee ranging from \$5-\$10 will be charged for each course from which **you** withdraw no less than five full business days prior to the start of the program. After this time, you may receive a 50% refund if a replacement can be found (waiting list has priority), the withdrawal does not affect course minimum enrollment, there is unlimited enrollment or the set date of withdrawal has not passed.

We reserve the right to credit your account for refunds under \$10.00. For larger refunds, please allow a minimum of two weeks for processing.

WE DO NOT GIVE REFUNDS AFTER THE START OF THE SECOND CLASS.

Falmouth Community Programs, 190 Middle Road, Falmouth, Maine 04105 www.falmouthme.org

Youth Pick-Up Policy

FCP requires staff to remain with youth program participants until they are released to a parent or guardian. Please meet your child at the designated pick-up time. A \$10 late fee will be charged for each ten-minute increment that your child remains with us past the designated pick-up time.

Course Guidelines

Course guidelines are designed to be appropriate for the enjoyment and safety of all participants. If an emergency/circumstance arises, or if you are dissatisfied with a program, please contact our office as soon as possible. Concerns will be reviewed on an individual basis.

Robot Recruit w/Mad Science ***Gr. 1-6***

Investigate robotic fundamentals with curious robots, learn about the history and current field of robotics, explore design potential by using robots that have big personalities, and build ingenious robots to take home. We will explore circuits, electricity, sensors, gears, and advanced robotic applications. Learn about the mechanical aspects of robots with gears, gear ratios, and torque. Pick up the basics of electricity by snapping together circuits to make a remote-control rover robot. Experiment with sound sensing robots, line-tracking robots, industrial robots, app-controlled performance bots, robotic pets, the world's smartest and smallest robot, and so much more. Our future roboticist rounds out the week getting more in-depth experience programming robots as they cycle through programming stations that will enrich their understanding of programming. **Important Notes:** This camp is different from other Mad Science Robotics programs. We do not build with Lego Robotics kits, but instead use some of the most innovative educational robotics kits to teach robot basics, circuitry, programming, and much more in an age-appropriate and fun way. Our Robotics teaching edge comes from 12 years of facilitating this topic and a professional research and development team that stays up to date on this ever changing topic.
