Route 1 Median Islands Details Sheet

Bid Alternate #1 - Loam and Seed
Not to Scale

- Place organic layer of Silt and Clay at 3" depth
- Place Loam at 4" depth in all areas
- Seed or hydroseed to obtain 90% growth coverage
- Sub-base layer for Grasspaver system shall be incidental to the installation of the cobblestones.
- Install ‘Jumbo-Thin’ Gray Cobblestones (10”x7”x3” +/-), set perpendicular to road. Joints shall be swept with envirostone/polymer sand, color to be granite.

Bid Alternate #2 - Cobble Pavers
Not to Scale

- Place organic layer of Silt and Clay at 3” depth
- Place Loam at 4” depth in all areas
- Seed or hydroseed to obtain 90% growth coverage
- Install ‘Jumbo-Thin’ Gray Cobblestones (10”x7”x3” +/-), set perpendicular to road. Joints shall be swept with envirostone/polymer sand, color to be granite.
- 3”-4” grading of crushed aggregate base, shall be incidental to the installation of the cobblestones.

Bid Alternate #3 - Loam and Seed With Grass-Pavers
Not to Scale

- Place organic layer of Silt and Clay at 3” depth
- Place Loam at 4” depth in all areas
- Seed or hydroseed to obtain 90% growth coverage
- Sub-base layer for Grasspaver system shall be incidental to the installation of the cobblestones.
- Install ‘Jumbo-Thin’ Gray Cobblestones (10”x7”x3” +/-), set perpendicular to road. Joints shall be swept with envirostone/polymer sand, color to be granite.
- 3”-4” grading of crushed aggregate base, shall be incidental to the installation of the cobblestones.

Bid Alternate #4 - Loam and Seed with Cobble Paver Edging
Not to Scale

- Place organic layer of Silt and Clay at 3” depth
- Place Loam at 4” depth in all areas
- Seed or hydroseed to obtain 90% growth coverage
- Sub-base layer for Grasspaver system shall be incidental to the installation of the cobblestones.
- Install ‘Jumbo-Thin’ Gray Cobblestones (10”x7”x3” +/-), set perpendicular to road. Joints shall be swept with envirostone/polymer sand, color to be granite.
- 3”-4” grading of crushed aggregate base, shall be incidental to the installation of the cobblestones.

- Install filter fabric
- Install Gray Cobbleston edging (2 courses wide), running bond pattern. Each cobble size shall be 9”x5”x5” +/-, set perpendicular to road. Joints shall be swept with envirostone/polymer sand, color to be granite.
